FORUM REPORT · THIRD EDITION

WSF 2017

Towards Sustainable Human Capital Development: Attraction and Retention of Women in the Extractive Industry

Antofagasta, Chile · In person

AT A GLANCE

VENUE	FORMAT	PROGRAMME	HIGHLIGHT
Antofagasta, Chile	**In person**	**2 parts: a panel and a consultation workshop**	**4 stakeholder groups at one table**

WSF 2017

About the Forum

The third Forum, in Antofagasta, convened participants from the private sector, government, academia and civil society. It opened as a panel and evolved into a consultation workshop, in partnership with Women in Mining Chile and the School of Business of Universidad Católica del Norte.

The findings offered preliminary answers on the sustainable human capital development, attraction and retention of women in the extractive industry, and a clearer view of its opportunities and challenges.

WSF 2017

Outcomes and impact

- Recommendations for effective collaboration to place women at the centre of sustainable regional development
- A shared view of the opportunities and challenges of the extractive industry
- A report of the Forum, available in Spanish

Antofagasta, Chile, in Latin America, hosted the third edition of the Forum.

WSF 2017

Programme

Panel: attraction and retention of women in the industry

An approach to sustainable human capital development in mining, oil and gas, at local and global levels.

Consultation workshop

Participants explored opportunities for the insertion, attraction and development of women, and approaches to social and corporate sustainability that add value for every stakeholder.

WSF 2017

Partners and sponsors

Women in Mining Chile; School of Business, Universidad Católica del Norte; Local Government of Antofagasta; Plataforma Consulting; and civil society organisations.
